

Figure #3 NET ASSEMBLY

The net has been designed with 3 colored sections. The white sections are the right and left ends of the net. Follow the numbered sequence to attach the net.

Net Assembly Instructions

Step 1: In order to attach the bungees, hold the plastic ball in place and wrap the free end around the tube

Step 2: Loop the free end of the chord around the plastic ball as shown in Figure 3. The bungees should be spread about 6 to 8 inches apart and also be placed on the corners. There should be 12 used on the top/bottom of the rebounder and 8 used per side.

NOTE: Although the 6 foot base depth provides stability, to better anchor the rebounder we are providing 8 ground stakes. Position the 6 U-shaped ground stakes as shown. We recommend that the 2 screw in ground stakes be positioned over tubes 6 on the side where most shots will be taken.

TOURNAMENT SOCCER REBOUNDER

SIZE: 12ft Wide x 6ft High x 6ft Deep
(3.66m x 1.83m x 1.83m)

BEFORE ASSEMBLY:

- Work on a smooth, flat surface.
- Lay out all components so they are in easy reach.
- Read assembly instructions completely to familiarize yourself with the components and procedures.

This soccer rebounder is designed to provide many hours of enjoyment if properly assembled and used only for the purpose intended.

Adult supervision is recommended when the rebounder is used by children.
